

## NET & BAG HOLDER PRODUCT INFO SHEET

### Overview:

The lightweight yet sturdy Net & Bag Holder is best used for easy accessible storage and quick bag-based sorting. Typically used in place of traditional hampers, in a commercial laundry setting they are typically stationed in the finishing department to quickly and easily sort rejected pieces into the bag. As with all Meese products, they are designed with ergonomics in mind to safely support all production environments. And they are nestable, making them easy to stack and store when not in use.

### Standard features:

The Net & Bag Holder has a plated metal rustproof frame mounted on hardwood runners. It can accommodate a bag or net 17" to 22" in diameter and up to 36" long.

### Dimensions:

The frame is 19" long, 12" wide and 32" deep.
