

**Overview:** The 71P has the same classic construction as the Meese flagship 72P but it is a narrower and taller sized cart.

**Benefits:** The 71P is made for optimum usage in tight spaces like elevators and older buildings. It is stronger and lighter since it is made of High Density Polyethylene (HDPE) compared to Linear Low Density Polyethylene (LLDPE) and has a metal free interior to avoid snags and tears. Although this cart is currently most often used on the West Coast and in Las Vegas, it is available and perfect anywhere that space is a premium.

**Standard Features**
