

Overview: This cart has all the great features of a 72P with some ergonomic features that greatly improve its ease of use.

Benefits: The lower, wider cutout opening in the cart makes for easier access to all items inside. The 72L is made of chemical resistant, water-proof polyethylene and comes with a powder coated steel base and industrial strength casters. It is stronger and lighter since it is made of High Density Polyethylene (HDPE) compared to Linear Low Density Polyethylene (LLDPE) and has a metal free interior to avoid snags and tears. Its optional "snap on" Secure Net helps cover the wider opening to hold contents in place during transport.

Standard Features

- Rotationally molded from waterproof, chemical-resistant High Density Polyethylene (HDPE)
- Torque-resistant, molded-in inserts
- Metal free interior
- Heavy duty powder coated steel base
- Four 6"x 2," gray, rubber, non-marking premium casters
