

72S BULK-TRUX[®] with Lid and Door option

PRODUCT INFO SHEET

Overview: The 72S, an upgraded version of the classic 72P, has superior strength, durability and security yet a sophisticated and contemporary design.

Benefits: The 72S is designed for customers that need a more modern and sophisticated look to their cart especially in public facing locations such as high-end hotels, resorts, health clubs, and restaurants. The brand-conscious 72S customer can even opt to have their logo molded-onto or molded-into the cart. Its ergonomic cutaway design helps speed loading and unloading and like all Meese carts, has a metal free interior to avoid snags and tears. The 72S has an optional lockable lid and door to deter theft and secure goods during transport and storage. Its body, lids and doors are made of the stronger and lighter High Density Polyethylene (HDPE) compared to competitors that use Linear Low Density Polyethylene (LLDPE) for the body and inferior ABS plastic for lids and doors.

Standard Features
