

Overview: This rugged cart has the same great quality and characteristics of the 70P but is slightly taller and narrower.

Benefits: This nimble cart is a popular choice in lower volume laundries and small hotel laundries dealing with tight spaces. The 74P is built with rugged construction, a reinforced base, and high quality casters. It is made of the stronger and lighter High Density Polyethylene (HDPE) compared to Linear Low Density Polyethylene (LLDPE), common with many competitors. It has a metal free interior to avoid snags and tears.

Standard Features

- Rotationally molded from waterproof, chemical-resistant High Density Polyethylene (HDPE)
- Torque-resistant, molded-in inserts
- Metal free interior
- Heavy duty powder coated steel base
- Four 6" x 2," gray, rubber, non-marking Colson casters
- Drain holes
- Hand holes

Featured Options
