

Standard footprint integrates into global logistics systems.

The P291 bulk forklift container handles products of all kinds and stacks covered, nests empty.

The P291 unitizes loads without pallets.

**Overview:** This rugged, durable bulk container made of High Density Polyethylene comes standard with features that contribute to easy lifting and storing.

**Benefits:** Built with two-way fork access to make lifting easier and safer, the P291 is also nestable for better shipping, handling and storage when empty. All P291's come standard with a rotomolded lid, allowing them to be easily stacked when full. The smooth poly interior ensures complete emptying every time.
