

92P Standard

Wire shelves in vertical position

Overview: The 92P, similar to but slightly taller than the 90P, is a popular, often-imitated shelf truck preferred by many hospitals and healthcare clinics around the country.

Benefits: The 92P comes with removable wire shelves. When full, this "Roundripper" cart is perfect for delivering folded goods, cleanly and efficiently. When empty, these wire shelves can be converted to the soiled position to form a "wall," making the transportation of soiled linens cleaner, safer, and easier. It is made of the stronger and lighter High Density Polyethylene (HDPE) compared to Linear Low Density Polyethylene (LLDPE), common with many competitors. And the 92P, like all Meese carts, has a metal free interior to avoid snags and tears.

Standard Features

- Rotationally molded from waterproof, chemical-resistant High Density Polyethylene (HDPE)
- (2) Removable wire shelves suspended by a shelf bar on the bottom and (2) "L" hooks on top
- Heavy duty powder coated steel base
- Torque resistant molded-in inserts
- Handholes on one or both sides
- Drain holes
