

87P SHELF-TRUX® PRODUCT INFO SHEET

Overview: The 87P is a popular shelf truck often found in hospitals and healthcare facilities around the country for the transportation of clean and soiled linen.

Benefits: The 87P offers a convenient and more organized solution to the daily challenge of delivering linens from cart to floor. This unique cart comes standard with two removable convertible wire shelves, but was designed to have room for an optional third shelf. It is made of the stronger and lighter High Density Polyethylene (HDPE) compared to Linear Low Density Polyethylene (LLDPE), common with many competitors. And the 87P, like all Meese carts, has a metal free interior to avoid snags and tears.

Standard Features

- Rotationally molded from waterproof, chemical-resistant High Density Polyethylene (HDPE)
- Torque resistant molded-in inserts
- (2) Removable wire shelves suspended by a shelf bar on the bottom and (2) L"hooks on top
- Heavy duty black powder coated steel base
- Four 6" X 2," gray rubber non-marking Colson casters
- Drain holes
- Hand holes
