

The breakthrough 101P introduced our non-removable, hinged shelf system that enables the shelves to be repositioned from horizontal to vertical in seconds

With a slim profile, the 101P fits four across on most standard trailers.

**Overview:** The rugged 101P is a smart, practical, long-lasting choice in shelf trucks due to its efficient size, strong construction and break-through shelf design feature.

**Benefits:** The non-removable, hinged, shelf system enables shelves to be repositioned quickly for use in delivery and return of linens. And, since the shelves stay in the carts, there is no chance for them to get lost. The all-poly shelves (in colonial white as standard) are easy to clean and, as a result, help maintain optimum sanitary conditions. It is made of the stronger and lighter High Density Polyethylene (HDPE) compared to Linear Low Density Polyethylene (LLDPE), common with many competitors. And the 101P, like all Meese carts, has a metal free interior to avoid snags and tears. And since four carts can fit across a truck, transportation is easy and cost-efficient.
