

101P SILVA-TRUX® PRODUCT INFO SHEET

 **Meese Silva-Trux are a unique line of carts that are infused with an antimicrobial agent.**

This technology has been added to enhance some of Meese's most popular carts to create the new Silva-Trux 70P, Silva-Trux 72P, Silva-Trux 90P, Silva-Trux 92P and Silva-Trux 101P.

The antimicrobial agent protects the Silva-Trux carts from deterioration caused by mold and mildew while also guarding against stains and odors from microbial growth. This extra protection helps make Silva-Trux carts stronger, tougher and able to endure even the most harsh work environments to better meet the demanding needs of customers.

Silva-Trux does not protect users or others against disease causing bacteria. Always clean this product thoroughly after each use.

The breakthrough 101P Silva-Trux introduced our non-removable, hinged shelf system that enables the shelves to be repositioned from horizontal to vertical in seconds without removing them from the cart.

Overview: The rugged 101P is a smart, practical, long-lasting choice in shelf trucks due to its efficient size, strong construction and break-through shelf design feature.

Benefits: The non-removable, hinged, shelf system enables shelves to be repositioned quickly for use in delivery and return of linens. And, since the shelves stay in the carts, there is no chance for them to get lost. The all-poly shelves (in colonial white as standard) are easy to clean and, as a result, help maintain optimum sanitary conditions. It is made of the stronger and lighter High Density Polyethylene (HDPE) compared to Linear Low Density Polyethylene (LLDPE), common with many competitors. And the 101P, like all Meese carts, has a metal free interior to avoid snags and tears. And since four carts can fit across a truck, transportation is easy and cost-efficient.

Standard Features

- Rotationally molded from waterproof, chemical-resistant High Density Polyethylene (HDPE)
- Torque-resistant, molded-in inserts
- Heavy duty powder coated, steel base
- Two, non-removable, hinged, plastic shelves in colonial white with molded-in hand holes
- Molded-in, steel shelf bar
- Four 6" x 2," gray rubber non-marking Colson casters
- Drain holes
- Hand holes

Featured Options (May affect shipping weight)

- Stencil, Mold-in or Mold-on text, logos or graphics
- Nylon cart covers
- Four 8" x 2," gray rubber non-marking Colson casters
- Barrel bolt to secure shelves in vertical position

Dimensions 60½" L x 24" W x 71¼" O.A.H.

Capacity 38 Bushels/46½ cubic feet

Load Capacity 800 lbs.

Shipping Weight 210 lbs. for standard part only

NOTE: Non-nesting containers; (50) per standard trailer
