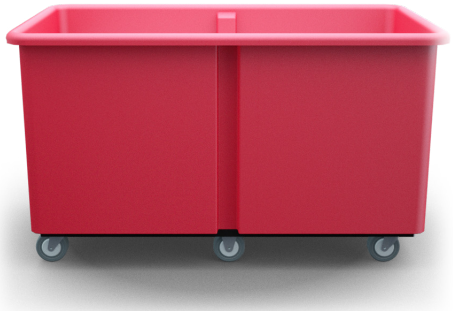
# 25P30 ERGO UTILITY-TRUX
## PRODUCT INFO SHEET

The 25P30 comes with our signature, spring-loaded platform as standard. The durable, rotomolded platform rises as linens are removed to reduce bending and reaching.



The 25P30 sets our ergonomic, spring-loaded platform within a rugged, rotationally molded cart with sturdy, internal supports on a powder coated, steel base for extra support.

Our 25P30 rises high to hold large amounts of laundry yet fits neatly in tight areas.

**Overview:** The 25P30 is an ergonomically designed, worker-friendly, multi-use coil spring platform cart. It is slightly taller than the 25P24

**Benefits:** The spring-loaded platform rises as items are removed, improving productivity by reducing the need for bending and lifting when processing linens in a laundry setting, sorting recyclable materials in an e-scrap setting, or handling products in a distribution center. It is made of the stronger and lighter High Density Polyethylene (HDPE) compared to Linear Low Density Polyethylene (LLDPE), common with many competitors. And the 25P30 ERGO, like all Meese carts, has a metal free interior to avoid leaks, snags, tears and damage to the contents of the cart.

### Standard Features

- Rotationally molded from waterproof, chemical-resistant High Density polyethylene (HDPE)
- Rugged, plastic, removable, spring-loaded platform
- Heavy duty powder coated steel base
- Smooth, flat bottom
- Middle rib supports and internal platform guides
- 5" hard rubber non-marking casters
- Torque-resistant, molded-in inserts
