

The rugged 50P14 Utility Trux is rotationally molded for long-lasting durability in a versatile size that fits a wide variety of jobs in any facility. Suitable for nearly any wet or dry product.

Smooth and metal-free inside, Meese engineers designed the 50P14 to nest and stack for efficient storage yet allow easy removal without sticking together.

Overview: The 50P series is the workhorse of the Utility-Trux line. It can handle nearly any product or material imaginable, under even the toughest conditions. The 50P14 has the same body style as the bigger 50P16 and is used in a variety of ways for recycling, construction and demolition, and material handling.

Benefits: These ultra-rugged, waterproof, and extremely versatile Utility-Trux come standard with a powder coated steel base and industrial strength casters. These units have the same tough design as the larger 50P16, only in a more compact, nimble size meant to handle a wide range of jobs in any facility. It is made of the stronger and lighter High Density Polyethylene (HDPE) compared to Linear Low Density Polyethylene (LLDPE), common with many competitors. And the 50P14, like all Meese carts, has a metal free interior to avoid leaks, snags, tears and damage to the contents of the cart. They also nest and stack for efficient storage and transport.

Standard Features

- Rotationally molded from waterproof, chemical-resistant High Density polyethylene (HDPE)
- Four 5" x 2" gray rubber non-marking casters
- Torque-resistant, molded-in inserts
- Heavy duty black powder coated steel base

Featured Options (May affect shipping weight)

- Galvanized metal base, flat
- Rotationally molded, rugged poly base
- Stencil, Mold-in or Mold-on text, logos or graphics
- Custom caster sizes, materials, configurations
- Fork safety tubes

Dimensions 39 1/2" L x 28 1/2" W x 38 1/2" H

Capacity 16 Bushels

Load Capacity 500 lbs.

Shipping Weight 80 lbs. for standard part only

Part(s)	1	2	3-5
Freight Class	250	150	125

Nestable Containers

High	Across	Per Std. Trailer
