

The 25P24 comes with our signature, spring-loaded platform as standard. The durable, rotomolded platform rises as linens are removed to reduce bending and reaching.

The 25P24 sets our ergonomic, spring-loaded platform within a rugged, rotationally molded cart with sturdy, internal supports on a powder coated, steel base for extra support.

Our waterproof, plastic platform hides the spring mechanism inside to minimize contact with linens and workers.

**Overview:** The 25P24 is an ergonomically-designed, worker-friendly, all-use spring platform cart.

**Benefits:** The spring-loaded platform rises as items are removed, improving productivity by reducing the need for bending and lifting when processing linens in a laundry setting, sorting recyclable materials in an e-scrap setting, or handling products in a distribution center. It is made of the stronger and lighter High Density Polyethylene (HDPE) compared to Linear Low Density Polyethylene (LLDPE), common with many competitors. And the 25P24, like all Meese carts, has a metal free interior to avoid leaks, snags, tears and damage to the contents of the cart.

**Standard Features**

- Rotationally molded from waterproof, chemical-resistant High Density Polyethylene (HDPE)
- Rugged, plastic, removable, spring-loaded platform
- Heavy duty powder coated steel base
- Smooth, flat bottom inside with drain holes
- Middle rib supports and internal platform guides
- 5" hard rubber non-marking casters
- Torque-resistant, molded-in inserts

**Featured Options** (May affect shipping weight)

- Stencil, Mold-in or Mold-on text, logos or graphics
- Custom caster sizes, materials, configurations
- Cart only—without spring-loaded platform

**Dimensions** 66½" L x 35" W x 31 H

**Load Capacity** Spring platform fully compresses at 136 lbs. (34 lbs per spring)

**Shipping Weight** 146 lbs. for standard part with platform only

**Part(s)** 1-3

**Freight Class** 250
