

Lid is optional accessory

Overview: These Utility-Trux are traditionally popular in the Northeast, but are now growing to be a standard at laundry facilities across the country.

Benefits: The unique body style of these Utility-Trux allow them to be a multifunctional cart for the collection and sorting of linen. Typically found near the flatwork area, the P319 is ideal for sorting out torn, stained or generally unusable linen. It is made of the stronger and lighter High Density Polyethylene (HDPE) compared to Linear Low Density Polyethylene (LLDPE), common with many competitors. And the P319, like all Meese carts, has a metal free interior to avoid leaks, snags, tears and damage to the contents of the cart.

Standard Features

- Galvanized pan base
- Torque resistant molded-in inserts
- 5" x 1 1/4" gray rubber non-marking casters
- Rotationally molded from waterproof, chemical-resistant High Density Polyethylene (HDPE)
