MEESE

72P BULK - TRUX® PRODUCT INFO SHEET

Overview: This often-imitated Poly-Trux® bulk cart is the standard by which all other carts are judged. In the 70's, Meese designed and trademarked the Poly-Trux® line of carts, starting with the 70P, to directly meet the needs of their laundry customers. Meese then went and made the best even better by introducing the 72P, a taller version of the 70P built with the same strength and functionality of the original, but designed to maximize even more space. Although many companies claim to offer the 72P, Meese is the only company that offers the true original.

Benefits: Its rugged construction, reinforced base, and high quality casters make it still the best cart on the market. The 72P has an optional rotomolded lockable lid and door to deter theft and secure goods during transport and storage. Its body, lids and doors are made of the stronger and lighter High Density Polyethylene (HDPE) compared to competitors that use Linear Low Density Polyethylene (LLDPE) for the body and inferior ABS plastic for lids and doors. And the 72P, like all Meese carts, has a metal free interior to avoid snags and tears.

Standard Features:
- Rotationally molded from waterproof, chemical-resistant High Density Polyethylene (HDPE)
- Torque-resistant, molded-in inserts
- Metal free interior
- Heavy-duty powder coated steel base
- Four 6"x 2" (15.2 cm x 5 cm), gray rubber non-marking premium Colson® casters
