

CAGE CART PRODUCT INFO SHEET

Cage Cart

Overview: Streamline your bulk linen transport with the Cage Cart, a highly maneuverable and secure solution tailored for the fast-paced commercial laundry industry.

With its compact footprint and impressive vertical design, the Cage Cart maximizes your load size while easily navigating through tight corridors, standard elevators, and crowded washroom floors where larger relay carts might struggle to fit.

Because European markets typically utilize this type of product in conjunction with highly automated systems, it is the ideal choice for forward-thinking, modernized operations.

Benefits: The Cage Cart is engineered for secure and efficient bulk linen transport, featuring an enclosed wire-mesh design that prevents spills while maintaining maximum airflow to reduce odors. Its compact 32" x 27" footprint allows for seamless navigation through tight corridors and standard doorways, yet it remains robust enough to support up to 900 lbs. To ensure ease of use, the cart is equipped with industrial-grade casters for smooth mobility, reducing operator fatigue even when handling heavy loads of damp linens or uniforms.

Standard Features:

- Heavy duty powder coating
- Four 6" X 2", gray rubber non-marking premium Colson casters

Featured Options:

- Four 8"x 2", gray rubber non-marking Colson casters

Dimensions: 32" L x 27" W x 76 3/4" H

Capacity: 21.25 bushels / 26.5 cubic feet

Load Capacity: 900 lbs

Shipping Weight: 135 lbs for standard part only

Color: Grey
